

Refund and Withdrawal Calendar – Tuition and Fees

Traditional Undergraduate

Refunds for institutional charges (i.e. tuition, fees) are calculated based on the class drop date as recorded in the Registrar’s Office. Students are responsible for notifying the Registrar’s Office when they intend to drop a class. Lack of attendance does not constitute a drop; drops are not processed automatically. Students must complete the University’s official withdrawal process.

Count Day is defined as the last day to add/drop a course without record and can be found on the Academic Calendar.

Partial Withdrawal – Percentage Applied to Dropped Course(s)

When a student drops a course(s) but remains enrolled at the University, 100% of tuition for the course(s) is refunded until Count Day. After Count Day the student may be eligible for a partial refund based on the date the student drops the course.

Drop before Count Day	100% Refund
Drop during 1st week (7 days) after Count Day	90% Refund
Drop during 2nd week (14 days) after Count Day	50% Refund
Drop more than 14 days after Count Day	No Refund

Complete Withdrawal

When a student withdraws from the University during the enrollment period, 100% of tuition and fees are refunded until Count Day. Beginning the day after Count Day, tuition and fees will be recalculated and prorated per day, determined by dividing the number of calendar days completed in the term by the total number of calendar days in the term. Weekends and holidays are included in the number of days, but breaks of five or more consecutive days are excluded. The General University Fee & Private Music Lessons are non-refundable after count day.

Tuition and Fees	100% refund until Count Day, then prorated up to 60% of the semester. No refunds after 60%.
Institutional Aid	100% reduction until Count Day, then prorated up to 60% of the semester. No reductions after 60%.

Students Receiving Federal Aid

For students who begin attendance during a term and then withdraw or stop attending classes before completing 60% of the term, a portion of the total federal aid received (excluding work study) will need to be returned. The amount which must be returned is determined by the Federal Formula for Return of Title IV Funds. The amount to be returned is determined by dividing the number of calendar days completed in the term by the total number of days in the term. Weekends and holidays are included in the number of days, but breaks of five or more consecutive days are excluded. This regulation also specifies the order in which funds are to be returned to the financial aid programs from which they were awarded.
